Spring 2014 Concurrent Enrollment Partnership (CEP) Program
MA 116 - College Algebra & COMPASS Exam Information

Students must have **a minimum 3.0 GPA** and the approval of the high school (and their parent or legal guardian if under 18 years of age) to enroll in Washburn University concurrent enrollment courses. Students must also have achieved a score of 22 or higher on the ACT Math Exam or the equivalent COMPASS Exam score to enroll in the MA 116 College Algebra course.

The COMPASS Math Exam may be taken on the WU campus on the dates listed below.

4:15 pm, Mabee Library Room 201
Thursday, October 31
Tuesday, November 19
Tuesday, December 3

Students must register and pay the $15 exam fee online at least one week prior to the exam date at:
www.washburn.edu/aoregistration

A photo ID (a driver's license or school ID) must be provided by the student at the start of the exam.

Students will be notified immediately after completing the exam whether or not they are eligible to enroll in the MA 116 College Algebra CEP course, and their high school CEP liaisons will also be notified.

The Washburn Testing Office will approve a request for a **single** retake of a portion of the COMPASS when there is substantial reason to believe that a meaningful change in the student's preparation has occurred. In general, retesting should not be scheduled until a full 30 days has elapsed to provide for sufficient opportunity for intervening learning/instruction.

A few sample practice exam questions are available at the url below.
