C. Committee Report(s)

1. Budget/Finance Committee

   a. FY 2012 General Fund Budget

   Dr. Farley summarized the balanced budget proposal that was previously submitted to the committee. The primary expenditure is the restoration of Washburn’s contribution to employees’ health insurance premiums. This expenditure will cover the share that employees previously paid, so Washburn will pay the full premium in the next fiscal year. Other expenditures of note are the re-design and tech support of Washburn’s web presence, and the implementation of the First Year Experience. The proposed revenue to offset the expenditures is a 4% tuition increase and expected increase in enrollment.

   Students Shay Gurseck and Michael Kitowski shared the students’ perspective, which was in favor of the tuition increase. They felt the benefits of raising tuition outweighed the detriments and want Washburn to remain competitive with other schools in offering high quality education. The students proposed a 5% increase. Regents commended the students’ efforts and had many questions, particularly regarding whether the increase would fund the students’ requests for 24-hour library access and computer/technology improvements. Vice President of Administration and Treasurer Rick Anderson explained Washburn is on a five year computer replacement cycle, but three years are optimal. He also explained there would be both one-time costs and on-going costs to open the library for 24 hours. Regents expressed concern about raising tuition in tough economic times.

   A motion was made and seconded to approve both the Washburn and Washburn Tech budgets as presented to the committee. Motion passed with Regent Bunten voting no.
