**2013-2014 Academic Year**

Describe your program’s assessment accomplishments since your last report. *Cell will expand to accommodate your text.*

We did not have any substantial changes and as a unit, we are on track. At the request of the Assessment Committee, the chairs worked on and presented a poster presenting our summative senior portfolio rubric to university faculty members in January of 2014. The Acting Chair attended mentor meetings and so a second member of the department has gained better understanding of the assessment process.

Discuss ways in which you have responded to the Assessment Committee comments on last year’s report and what assessment work was initiated, continued, or completed. *Cell will expand to accommodate your text.*

In response to the critique on last year’s report that the PSLOs contained too many details, Dr. Lalonde helped us eliminate repetitive language and consolidate our seven PSLOs into four concise ones. We are still working on adding indirect measures and we have not given up on our dream of incorporating a national exam as an assessment tool in the intermediate courses and then as exit exams. Prof. Tenny’s grant through the VPAA for such an exam did not receiving funding. We are also still working on a way to articulate how our assessment data is being used to validate or change our curriculum.

Delete rows that are not needed. Copy and paste to add rows. Cells will expand to accommodate your text.

<td>PSLO # 1</td>
<td><strong>Direct:</strong> According to the data based on the Major Portfolio Assessment Form (MPAF) scores, eight students scored “excellent” and four earned “good” in this area.</td>
<td>Based on analysis of the course grades and senior portfolios, we think our students are on target since 100 percent of them scored “good” or higher on our MPAF. We set a goal two years ago for all our graduates to reach the “good” or</td>
<td>This report has been emailed to faculty members in the department for suggestions and comments for revision, we post our assessment data on our department’s home page, and we discuss the data at the both the annual ML retreat and the ML annual awards ceremony.</td>
</tr>
</tbody>
</table>
### PSLO # 2

**Direct:** According to the data based on the MPAF scores, five students scored “excellent” and seven earned “good” in this area.

*Indirect:* N/A

The data shows that this is the only PSLO where the number of “good” ratings outnumber the “excellent” ones. We have still hit our target, but this might be one area where we could slightly improve.

This report has been emailed to faculty members in the department for suggestions and comments for revision, we post our assessment data on our department’s home page, and we discuss the data at the both the annual ML retreat and the ML annual awards ceremony.

### PSLO # 3

**Direct:** According to the data based on the MPAF scores, nine students scored “excellent” and three earned “good” in this area.

*Indirect:* N/A

Based on analysis of the course grades and senior portfolios, we think our students are on target since 100 percent of them scored “good” or higher on our MPAF.

This report has been emailed to faculty members in the department for suggestions and comments for revision, we post our assessment data on our department’s home page, and we discuss the data at the both the annual ML retreat and the ML annual awards ceremony.

### PSLO # 4

**Direct:** According to the data based on the MPAF scores, seven students scored “excellent” and five earned “good” in this area.

*Indirect:* Exit Interview

Based on analysis of the course grades and senior portfolios, we think our students are on target since 100 percent of them scored “good” or higher on our MPAF.

We are currently working on how to “interview” our students during their senior thesis defense.

This report has been emailed to faculty members in the department for suggestions and comments for revision, we post our assessment data on our department’s home page, and we discuss the data at the both the annual ML retreat and the ML annual awards ceremony.

### 2013-2014 Academic Year

**Have there been any changes to your Program Assessment Plan (including calendar and curriculum map) since last year’s report?**

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>

Formerly we had 7 PSLOs, but since some of the language seemed repetitive and the criteria seemed to overlap, we made cuts and revisions. We now only have 4 PSLOs.

**Describe how faculty members were involved in using assessment data to improve student learning.**

This is an ongoing process in which we informally discuss the data during the school year at department meetings, and then formally at our annual retreat.

**Describe how stakeholders are engaged in your assessment plan and process.**

Our graduates keep us informed on how they are using the skills they learned in their language majors in both their graduate studies and jobs. This year, one student is pursuing an MA in Paris at Columbia University and two students have secured full-time language teaching positions at both a middle school and a high school. Another major is assisting a high school language teacher while she finishes her degree and other majors are serving the community as ESL teacher/tutors at Topeka High. We will need to stay in touch with the two students with teaching positions to see how they do on the Praxis exam this year.
### 2013-2014 Academic Year

**During this year, if any PSLO was addressed through new or unique experiences outside the classroom, explain where and how the opportunities were provided to students in your program (i.e. internships, field experiences, visiting lectures, collaborative projects, and other creative ideas you have employed).**

N/A

We plan to establish guidelines for a thesis defense in order to further assess the PSLOs, especially in regard to PSLO 1 since it is difficult to evaluate a student’s speaking skills based on the written documents they turn into us. This may entail formulating a new rubric that is essentially an amalgam of the four PSLOs we use to evaluate our graduating seniors. Although we have hit our target of >75 percent or more of our students earning a score of at least “good” on the MPAF in regard to all of our PSLOs, we could look at the pedagogical methods we use in our FR 311 courses since what we teach in that course corresponds to our weakest rating in the PSLOs. That said, our course grades in all the 311 courses are in general strong and consistent with the MPAF data, so we are on track in our goal of forming majors who leave Washburn with strong foundations in grammar, culture, literature and oral communication.

*Supporting documents (rubrics, summary data tables/charts, etc.) should be in your department’s assessment subfolder on the shared drive in the correct academic year subfolder.*
