Washburn University School of Applied Studies Department of Allied Health OCCUPATIONAL THERAPY ASSISTANT PROGRAM ASSOCIATE OF SCIENCE DEGREE

I. **PROGRAM OBJECTIVE**: To offer an Associate of Science degree with a major in Occupational Therapy Assistant.

A. Rationale:

Occupational Therapy (OT) is a skilled treatment that helps individuals achieve independence in all facets of their lives. Occupational Therapy assists people in developing the skills for the job of living and necessary for independent and satisfying lives. Occupational therapy assistants (OTA) assist the OTs to implement the treatment plans to help individuals to achieve their independence.

Washburn University's Mission states that it: *shall prepare qualified individuals for careers, further study and lifelong learning through excellence in teaching and scholarly work.* The Occupational Therapy Assistant program will assist with meeting the mission through increasing healthcare services in our region. There is a need in the rural communities and the local cities/communities for a more diverse set of allied health professionals, i.e. occupational therapy assistants, to provide well rounded service to the community.

The Allied Health Department offers an associate of science degree with the following majors: Health Information Technology; Physical Therapist Assistant; Radiologic Technology; and Respiratory Therapy. The Occupational Therapy Assistant program will provide an additional major within the associate degree.

B. Market Demand

This program would serve a large geographical area within Missouri and Kansas. Within Kansas only one program exists, Newman University. Within the identified catchment area only Penn Valley Community College provides an OTA program.

The Bureau of Labor Statistics indicates that employment for occupational therapy assistants is expected to grow much faster than average as demand for OT services rises. The employment of OTAs is expected to grow 25% from 2006 to 2016. (BLS - Occupational Outlook Handbook, 2008-09 Edition http://www.bls.gov/oco/ocos166.htm)

Accordingly, the Kansas Hospital Association projected 2008 employment of OTAs is at 325 with average annual job openings of 50-70 openings per year.

C. COMMUNITY SUPPORT

In May of 2008 the Vice President for Patient Care Services at Saint Francis Health Center contacted the Washburn University allied health department chair to discuss the shortage of OTs and OTAs. A concern regarding the sudden surge of traumatic brain injured soldiers at Ft Riley, which used to have about 10 - 20 soldiers and now has 300-400 soldiers, was an additional influence for Saint Francis contacting Washburn University.

Since July of 2008 the allied health department in conjunction with Saint Francis has been working on the development of this curriculum/program. Letters of support can be found in Appendix A.

D. ADMINISTRATION

The degree will be administered by the Department of Allied Health. This program will be accredited through the Accreditation Council For Occupational Therapy Education Accreditation (ACOTE).

E. FACULTY

Two full time faculty positions are required by accreditation as indicated by Standard A.2.O. Academic Resources. The Program Director position will be a 12 month position and the second faculty position will be a 9 month position. Both positions would be funded by sources external to Washburn University.

F. BUDGET

This program would only be implemented as long as external funding is available for the faculty positions. The pro forma is located in Appendix B.

II. ADMISSION REQUIREMENTS

Candidates for admission to the program would be required to be accepted by Washburn University following current policies. In addition, the program would have specific admission criteria that would have to be met.

The number of students accepted into the program would be determined by the number of clinical placements available. It is expected that twenty students will be accepted per year.

III. CURRICULUM

The associate of science degree will be a total of 76 credits which includes university requirements and specific allied health course which meet the OTA standards for

curriculum. The curriculum outline, course descriptions, and degree plan can be found in Appendix C. Also listed within the course descriptions are the ACOTE standards each new course will meet.

Located in Appendix D are the OTA- ACOTE Standards. Beside each standard is a list of courses that satisfy the ACOTE requirement.

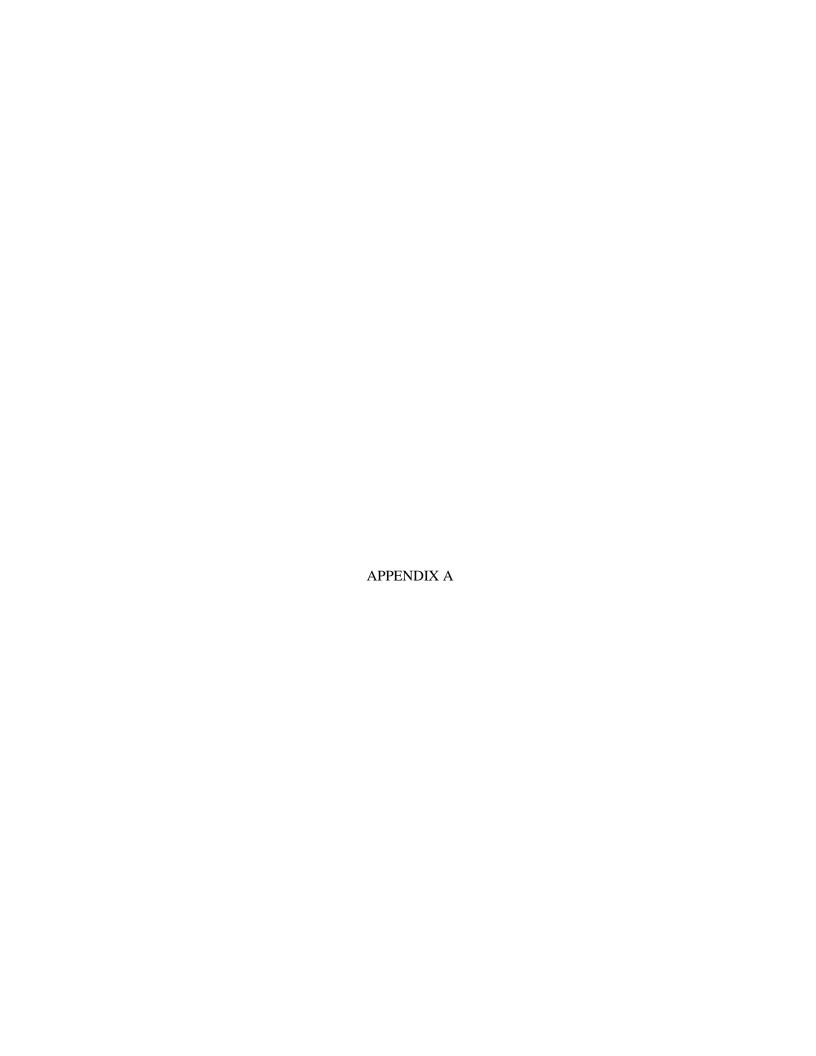

III.LIBRARY HOLDINGS

Relevant to the proposed OTA program, Judy Druse completed a review of the resources at Mabee Library. Her analysis is in Appendix E.

IV. PROGRAM EVALUATION

The following are minimal measures that will be conducted to evaluate the effectiveness of the program.

- 1. Student satisfaction with course/curriculum content.
- 2. Graduate satisfaction with course/curriculum content.
- 3. Employer satisfaction with graduate competence.
- 4. Course enrollment versus completion rates.
- 5. Passing rates on certification exams.

REF: Occupational Therapy Assistant Program - Letter of Support

Dear Dr. Munzer:

I write endorsing whole-heartedly the effort by Washburn University and St. Francis Health Center Rehabilitation Services to develop an Occupational Therapy Assistant Program. We experience daily unmet patient needs in northeast Kansas secondary to the lack of occupational therapists and assistants. Such training often means students must leave the state...and often do not return, but practice in the community where they received their degrees/certifications.

The aging of the population, even more so in northeast Kansas, coupled with the increasing number of baby boomers in the next few years call for resources aimed at providing for the physical needs ensuring a patient can remain as independent as long as possible for the good of the person, his/her family, and the community. I recommend the Occupational Therapy Assistant Program move forward.

Sincerely,

Andrew H. Schauer, PhD

Consulting Psychologist - St. Francis Health Center - Rehabilitation Services

Dr. Pat Munzer Chair Allied Health Washburn University 1700 SW College Ave. Benton 108 Topeka, KS 66621

Dear Dr. Munzer,

I am an occupational therapist at St. Francis Health Center and have worked in the field for 15 years. I can honestly say that the vast majority of time I have been in the field, we have been grossly short-staffed. We typically have two or more openings at any given time.

I would like to express my excitement at the prospect of having a well-run occupational therapy assistant program here at Washburn University. We have profited greatly from the physical therapy assistant program in that we have hired many graduates, and have the pleasure of working with many of the students. I foresee a COTA program offering us the same benefits.

I believe this would offer a great number of people in this geographic area a chance at a rewarding career. I truly hope this comes to fruition.

Sincerely,

Jenny Sodergren, OTR/L

William S Dunlap, Ph.D. Washburn University Dean and Professor, School of Applied Studies 1700 SW College Avenue Topeka, KS 66621

Dr Mr. Dunlap:

On behalf of Lawrence Memorial Hospital, Kreider Rehabilitation Services, I would like to express our support of the development of an Occupational Therapist Assistant program at Washburn University. The need for occupational therapists assistants throughout Kansas is extremely strong. This is a growth area within medical rehabilitation services. OTA's are highly respected within the health care community, well-paid, and are in high demand and short supply. This need is becoming more critical with advances in therapeutic services, our aging population, and the aging workforce in health science specialties. We applied Washburn for its foresight in taking the lead in proposing this valuable degree option. Thank you for your consideration in helping meet the health care needs of Kansas.

Sincerely,

Jaye Cole

Director of OT, Lawrence Memorial Hospital, Kreider Rehabilitation Services

September 23, 2009

William S. Dunlap, Ph.D.
Dean and Professor, School of Applied Studies
Washburn University
1700 SW College Avenue
Topeka, KS 66621

Dear Mr. Dunlap:

Thank you for your dedication to health professional education in Kansas. On behalf of the Kansas Hospital Association, I would like to express our support for the development of an Occupational Therapist Assistant program at Washburn University.

The need for occupational therapist assistants throughout Kansas is a challenge community hospitals continually struggle to overcome. Statistics clearly show occupational therapy is a growth area within medical rehabilitation services. Occupational therapist assistants are highly respected within the health care community and well-paid, but are also in short supply despite high industry demand. This need is becoming more critical with advances in therapeutic services, our aging patient population, and the aging workforce in health science specialties.

We applaud Washburn for its foresight in taking the lead to propose this valuable degree option. Thank you for your consideration in helping meet the health care needs for Kansas.

Respectfully,

Thomas S. Bell

Salina Regional Health Center

William S. Dunlap, Ph.D.
Dean and Professor, School of Applied Studies
Washburn University
1700 SW College Avenue
Topeka, KS 66621

Dear Dr. Dunlap,

I was glad to hear that Washburn's future plans may include the development of an Occupational Therapist Assistant program. We have had an association with Washburn's Physical Therapist Assistant program for some time and have been pleased with the students that have done clinical affiliations here.

On behalf of Salina Regional Health Center I would like to express support for this program. There is a need for more Occupational Therapist Assistants in our city and in this region. We typically recruit for many months before we can fill open positions. I know there are currently a number of openings in our community.

I would anticipate that you would need clinical affiliation sites with the advent of this program. Salina Regional Health Center Occupational Therapy department would be happy to help in this area. I look forward to hearing about the successful development of this program.

Sincerely,

Patti Aumick PT, MBA

COURSE DESCRIPTIONS

AL 161 - FOUNDATIONS OF OCCUPATIONAL THERAPY I (2 Credit Hours)

COURSE DESCRIPTION: This course is an introduction to the history and philosophical base of occupational therapy. Areas of instruction include: models of practice; frames of reference; the role of the Occupational Therapist/Occupational Therapy Assistant; Code of Ethics; Core Values; Standards of Practice and the Delivery of Occupational Therapy Services. PREREQUISTE: Formal Admission to the Occupational Therapy Assistant Program.

ACOTE STANDARDS: B.2.1, B.3.1, B.3.2, B.4.4, B.7.1, B.7.4, B.9.1, B.9.4, B.9.6, B.9.7, B.9.8

LEARNING OBJECTIVES:

- 1. Articulate an understanding of the importance of the history and philosophical base of the profession of occupational therapy
- 2. Describe basic features of the theories that underlie the practice of occupational therapy

<u>AL 162 -OCCUPATIONAL THERAPY INTERVENTIONS I</u> (3 Credit Hours)

COURSE DESCRIPTION: This lecture and lab course will discuss the dynamics of the occupation to include the activity, performance skills, and performance patterns from conception to age 18. The student will exhibit the ability to analyze tasks and implement an intervention plan for the occupational therapy client. PREREQUISTE: AL 161

ACOTE STANDARDS: B.1.5, B.2.2, B.2.7, B.2.11, B.4.4, B.4.5, B.5.12, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3.

LEARNING OBJECTIVES:

- Describe the meaning and dynamics of occupation and activity, including the interaction of areas of occupation, performance skills, performance patterns, activity demands, context(s) and client factors.
- 2. Exhibit the ability to analyze tasks relative to areas of occupation, performance skills, performance patterns, activity demands, context(s) and client factors to implement the intervention plan.

AL 163 - FOUNDATIONS OF OCCUPATIONAL THERAPY II (3 Credit Hours)

COURSE DESCRIPTION: This lecture/lab course is a continuation of AL 161 and will allow the student to develop the ability to select and implement occupational therapy interventions related to the activities of daily living. PREREQUISITE: AL 161, Concurrent with AL 164

ACOTE STANDARDS: B.4.1, B.4.2, B.4.3, B.5.2, B.5.3, B.5.4, B.5.5, B.5.11, B.7.6, B.7.9, B.9.7, B.9.8

LEARNING OBJECTIVES:

Articulate the importance of balancing areas of occupation with the achievement of health

- 1. and wellness.
- Select and provide direct occupational therapy interventions and procedures to enhance safety, wellness, and performance in activities of daily living (ADL), instrumental activities of daily living (IADL), education, work, play, leisure and social participation.

AL 164 - LEVEL I FIELDWORK 1 (1 Credit Hour)

COURSE DESCRIPTION: This course requires a specific number of hours of limited occupational therapy assistant exposure in the healthcare setting. PREREQUISITE: AL 161 and Concurrent with AL 163.

ACOTE STANDARDS: B.1.2, B.7.8, B.7.10, B.9.6

LEARNING OBJECTIVES:

- Identify personal and professional abilities and competencies as they relate to job responsibilities.
- Employ logical thinking, critical analysis, problem solving, and creativity in the clinical OTA setting.

AL 165 -SPECIAL CONSIDERATIONS FOR OTAS IN PSYCHOSOCIAL DISORDERS (1 Credit Hour)

COURSE DESCRIPTION: This course will provide the student with the knowledge and understanding of the concepts of psychiatric disorders and human behavior as it relates to the role of occupational therapy services. This course will focus on psycho social mental health occurring disorders with dementia, physical injury, trauma, or neurological dysfunction. PREREQUISITE: AL 164

ACOTE STANDARDS: B.1.6, B.1.7, B.2.6

LEARNING OBJECTIVES:

- 1. Demonstrate knowledge and understanding of the concepts of human behavior to include the behavioral and social sciences as it relates to occupational therapy.
- Demonstrate knowledge and appreciation of the role of sociocultural, socioeconomic, and diversity factors and lifestyle choices in contemporary society as it relates to occupational therapy.

AL 166 -OCCUPATIONAL THERAPY INTERVENTIONS II (3 Credit Hours)

COURSE DESCRIPTION: This lecture lab course is a continuation of AL 162 and will discuss the dynamics of the occupation to include the activity, performance skills, and performance from early adulthood to later maturity. PREREQUISITE: AL 162

ACOTE STANDARDS: B.1.5, B.4.5, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3,

LEARNING OBJECTIVES:

Explain the need for and use of compensatory strategies when desired life tasks cannot be

- 1. performed.
- 2. Apply models of occupational performance and theories of occupation.

<u>AL 167 - FOUNDATIONS OF OCCUPATIONAL THERAPY III</u> (3 Credit Hours)

COURSE DESCRIPTION: This course is a continuation of AL 163 and will allow the student to develop the ability to administer selected assessments, screening, evaluation tools, and skilled observations and to develop skills that relate to analysis of movement, orthotic devices, superficial thermal and mechanical modalities. PREREQUISITE: AL 163

ACOTE STANDARDS: B.4.1, B.4.2, B.5.3, B.5.8, B.5.9, B.5.10. B.5.13, B.7.6, B.7.9

LEARNING OBJECTIVES:

- Gather and share data for the purpose of screening and evaluation including, but not limited to, specified screening tools; assessments; skilled observations; checklists; histories; consultations with other professionals; and interviews with the client, family and significant others.
- 2. Administer selected measurements using appropriate procedures and protocols (including standardized formats) and use of occupation for the purpose of assessment.

<u>AL 265B - APPLIED NEUROPHYSIOLOGY - OCCUPATIONAL THERAPY LAB</u> (0 Credit Hours)

COURSE DESCRIPTION: This lecture lab course is designed to develop the Occupational Therapy Assistant and the Physical Therapist Assistant with the skills to collaborate, develop and implement assessment/treatment techniques for individuals with neurological and/or cardiovascular disorders. This includes specific assessment and treatment techniques for patients in special populations, such as spinal cord injury, pediatrics, amputees, traumatic head injury, cerebrovascular accidents, as well as other neurological or cardiovascular disorders. PREREQUISITES: AL 167, BI 255

ACOTE STANDARDS: B.4.4, B.4.5, B.5.4, B.5.8, B.5.9, B.5.10, B.5.11, B.5.12, B.5.13, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3

LEARNING OBJECTIVES

- Monitor and reassess, in collaboration with the client, caregiver, family, and significant others, the effect of occupational therapy intervention and the need for continued or modified intervention, and communicate the identified needs to the occupational therapists.
- 2. Facilitate discharge planning by reviewing the needs of the client, caregiver, family, and significant others; resources; and discharge environment, and identify those needs to the occupational therapy, client, and other involved in discharge planning. This includes, but is not limited to, identification of community, human, and fiscal resources;

recommendations for environmental adaptations; and home programming.

AL 252 - PSYCHOSOCIAL OCCUPATIONAL THERAPY (4 Credit Hours)

COURSE DESCRIPTION: This lecture lab course discusses the role of occupational therapy concerning therapeutic use of self, including one's personality, insights, perceptions and judgments as part of the therapeutic process in individual and group interactions. PREREQUISITE: AL 165,

ACOTE STANDARDS: B.1.7, B.1.8, B.4.4., B.4.5, B.5.6, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3,

LEARNING OBJECTIVES:

- 1. Articulate the influence of social conditions and the ethical contest in which humans choose and engage in occupations.
- 2. Provide therapeutic use of self, including one's personality, insights, perceptions, and judgments as part of the therapeutic process in both individual and group interaction.

AL 253 - LEVEL I FIELDWORK II (1 Credit Hour)

COURSE DESCRIPTION: This course requires a specific number of hours in the health care setting to allow the student to employ logical thinking, critical analysis, problem solving and creativity as it relates to the occupational therapy clinical setting. PREREQUISITE: AL 164, AL 167

ACOTE STANDARDS: B. 5.6, B.5.7, B.7.10

LEARNING OBJECTIVES:

- 1. Describe the role of the occupational therapy assistant in care coordination, case management, and transition services in traditional and emerging practice environments.
- 2. Describe the ongoing professional responsibility for providing fieldwork education and the criteria for becoming a fieldwork educator.

AL 254 - CURRENT TOPICS IN OCCUPATIONAL THERAPY (2 Credit Hours)

COURSE DESCRIPTION: This course will allow the student to obtain the knowledge and understanding of the systems and structures that create federal and state legislation and regulation for occupational therapy. Topics include reimbursement, national, international and state regulations for licensure, certification and/or registration for occupational therapy. PREREQUISITE: AL 167

ACOTE STANDARDS: B.1.2, B.1.10, B.5.7, B.7.2, B.7.3, B.7.5, B.9.1,B.9.2, B.9.3, B.9.5, B.9.9, B.9.10, B.9.11, B.9.12, B.9.13

LEARNING OBJECTIVES:

1. Articulate to consumers, potential employers, colleagues, third-party payers, regulatory boards, policymakers, other audiences, and the general public both the unique nature of

- occupation as viewed by the profession of occupational therapy and the value of occupation to support the context(s) for the client.
- 2. Identify the systems and structures that create federal and state legislation and regulation

AL 255 - LEVEL II FIELDWORK (8 Credit Hours)

COURSE DESCRIPTION: This field work placement consists of two, full time, eight week rotations and provides the student with the opportunity develop into competent, entry-level occupational therapy assistants. The student will be exposed to a variety of clients across the life span and a variety of settings. PREREQUISITE: Satisfactory completion of all previous coursework

ACOTE STANDARDS: B.10.14, B.10.15, B.10.16, B.10.17, B.10.18, B.10.19, B.10.20, B.10.21, B.10.22

LEARNING OBJECTIVES:

- 1. Psychosocial factors influencing engagement in occupation must be understood and integrated for the development of client-centered, meaningful, occupation-based outcomes.
- Ensure that the fieldwork experience is designed to promote clinical reasoning appropriate to the occupational therapy assistant role, to transmit the values and beliefs that enable ethical practice, and to develop professionalism and competence in career responsibilities.

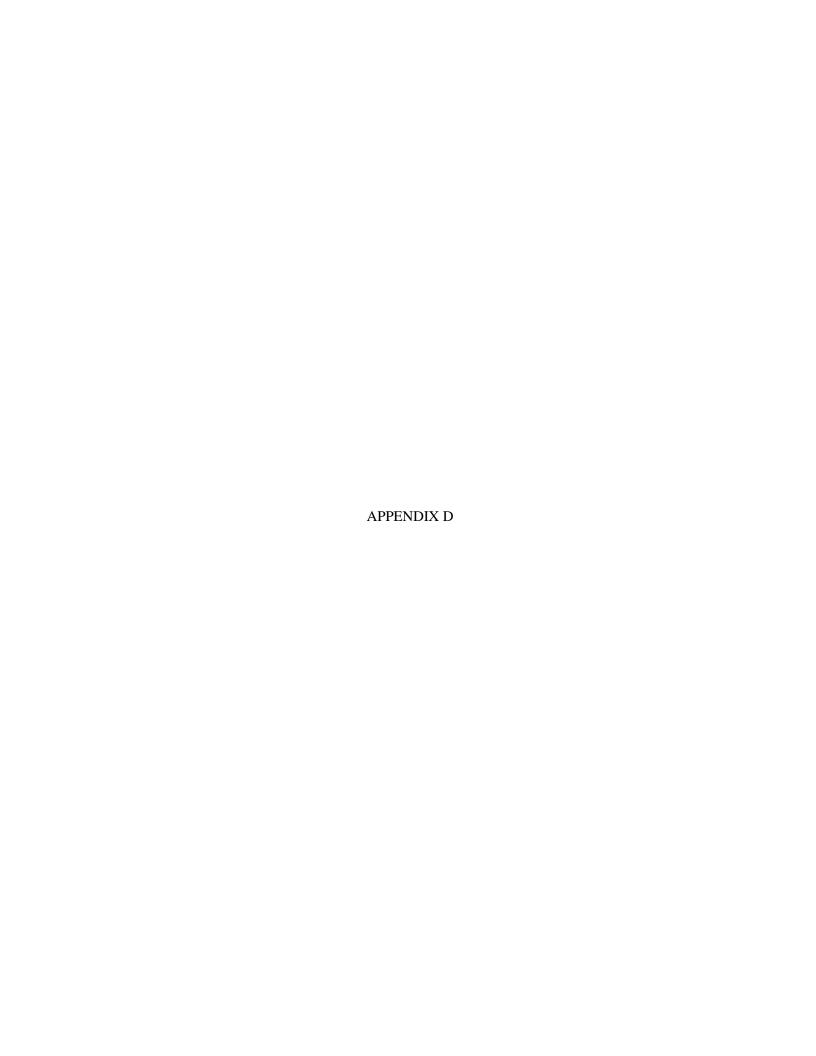

AL 256 - OCCUPATIONAL THERAPY ISSUES (1 Credit Hour)

COURSE DESCRIPTION: This course will emphasize issues that relate to consumers, potential employers, colleagues, third party payers, regulatory boards, policymakers and others the value of the occupational therapy profession. PREREQUISITE: Satisfactory completion of all previous coursework

ACOTE STANDARDS: B.2.3. B.3.3, B.5.21, B.5.22, B.5.24, B.6.2, B.6.3, B.7.2, B.7.3, B.7.4, B.9.2, B.9.4, B.9.5, B.9.9, B.9.12, B.9.13

LEARNING OBJECTIVES:

- 1. Demonstrate knowledge of global social issues and prevailing health and welfare needs.
- 2. Identify the role and responsibility of the practitioner to address changes in service delivery policies, to effect changes in the system, and to recognize opportunities in emerging practice areas
- 3. Demonstrate knowledge of applicable national requirements for credentialing and requirements for licensure, certification, or registration under state laws.

	OTA Standard	Course #
B.1.1.	Demonstrate oral and written communication skills.	EN 101 AL 101
B.1.2.	Employ logical thinking, critical analysis, problem solving, and creativity.	AL164 AL254
B.1.3.	Demonstrate competence in basic computer use, including the ability to use databases and search engines to access information, word processing for writing, and presentation software (e.g., PowerPoint).	AL 163 AL167
B.1.4.	Demonstrate knowledge and understanding of the structure and function of the human body to include the biological and physical sciences. Course content must include, but is not limited to, anatomy, physiology, and biomechanics.	BI 100 BI 101
B.1.5.	Demonstrate knowledge and understanding of human development throughout the life span (infants, children, adolescents, adults, and elderly persons). Course must include comparison of normal and abnormal development within the lifespan as it relates to occupational therapy.	AL162 AL166
B.1.6.	Demonstrate knowledge and understanding of the concepts of human behavior to include the behavioral and social sciences relating to occupational therapy services.	PY 100 AL165
B.1.7.	Demonstrate knowledge and appreciation of the role of sociocultural, socioeconomic, and diversity factors and lifestyle choices in contemporary society.	AL165 AL252
B.1.8.	Articulate the influence of social conditions and the ethical context in which humans choose and engage in occupations.	SOC 101 AL252
B.1.9.	Demonstrate knowledge of global social issues and prevailing health and welfare needs.	AL 101 AL256
B.1.10.	Articulate the importance of using statistics, tests, and measurements.	MA 110 MA 116
B.2.1.	Articulate an understanding of the importance of the history and philosophical base of the profession of occupational therapy.	AL161 AL162 AL 166
B.2.2.	Describe the meaning and dynamics of occupation and activity, including the	AL 162

	OTA Standard	Course #
	interaction of areas of occupation, performance skills, performance patterns, activity demands, context(s), and client factors.	AL163
B.2.3.	Articulate to consumers, potential employers, colleagues, third-party payers, regulatory boards, policymakers, other audiences, and the general public both the unique nature of occupation as viewed by the profession of occupational therapy and the value of occupation to support participation in context(s) for the client.	AL254 AL256
B.2.4.	Articulate the importance of balancing areas of occupation with the achievement of health and wellness.	PE 198 AL163
B.2.5.	Explain the role of occupation in the promotion of health and the prevention of disease and disability for the individual, family, and society.	PE 198 AL163 AL167
B.2.6.	Understand the effects of physical and mental health, heritable diseases and predisposing genetic conditions, disability, disease processes, and traumatic injury to the individual within the cultural context of family and society on occupational performance.	AL 320 AL165
B.2.7.	Exhibit the ability to analyze tasks relative to areas of occupation, performance skills, performance patterns, activity demands, context(s), and client factors to implement the intervention plan.	AL162 AL163
B.2.8.	Use sound judgment in regard to safety of self and others, and adhere to safety regulations throughout the occupational therapy process.	AL 101 AL161
B.2.9.	Express support for the quality of life, well-being, and occupation of the individual, group, or population to promote physical and mental health and prevention of injury and disease considering the context (e.g., cultural, physical, social, personal, spiritual, temporal, virtual).	AL 101 SOC 101
B.2.10.	Explain the need for and use of compensatory strategies when desired life tasks cannot be performed.	AL163 AL166
B.2.11.	Apply models of occupational performance and theories of occupation.	AL162 AL166
B.3.1.	Describe basic features of the theories that underlie the practice of occupational therapy.	AL161 AL162 AL166
B.3.2.	Describe models of practice and frames of reference that are used in occupational therapy.	AL161 AL162 AL166
B.3.3.	Analyze and discuss how history, theory, and the sociopolitical climate influence practice.	AL254 AL256
B.4.1.	Gather and share data for the purpose of screening and evaluation including, but not limited to, specified screening tools; assessments; skilled observations; checklists; histories; consultations with other professionals; and interviews with the client, family, and significant others.	AL163 AL167
B.4.2.	Administer selected assessments using appropriate procedures and protocols (including standardized formats) and use occupation for the purpose of assessment.	AL163 AL167
B.4.3.	Gather and share data for the purpose of evaluating client(s)' occupational	BI 275

	OTA Standard	Course #
	performance in activities of daily living (ADL), instrumental activities of daily living (IADL), education, work, play, leisure, and social participation. Evaluation of occupational performance includes The occupational profile, including participation in activities that are meaningful and necessary for the client to carry out roles in home, work, and community environments. Client factors, including body functions (e.g., neuromuscular, sensory, visual, perceptual, cognitive, mental) and body structures (e.g., cardiovascular, digestive, integumentary systems). Performance patterns (e.g., habits, routines, roles) and behavior patterns. Cultural, physical, social, personal, spiritual, temporal, and virtual contexts and activity demands that affect performance. Performance skills, including motor (e.g., posture, mobility, coordination, strength, energy), process (e.g., energy, knowledge, temporal organization, organizing space and objects, adaptation), and communication and interaction skills (e.g., physicality, information exchange, relations).	BI 255 AL 186 AL163
B.4.4.	Articulate the role of the occupational therapy assistant and occupational therapist in the screening and evaluation process along with the importance of and rationale for supervision and collaborative work between the occupational therapy assistant and occupational therapist in that process.	AL 161 AL162 AL265B AL 252
B.4.5.	Identify when to recommend to the occupational therapist the need for referring clients for additional evaluation.	AL162 AL166 AL265B AL 252
B.4.6.	Document occupational therapy services to ensure accountability of service provision and to meet standards for reimbursement of services, adhering to applicable facility, local, state, federal, and reimbursement agencies. Documentation must effectively communicate the need and rationale for occupational therapy services.	AL 101 AL162 AL163 AL164 AL165
B.5.1.	Assist with the development of occupation-based intervention plans and strategies (including goals and methods to achieve them) based on the stated needs of the client as well as data gathered during the evaluation process in collaboration with the client and others. Intervention plans and strategies must be culturally relevant, reflective of current occupational therapy practice, and based on available evidence. Interventions address the following components: The occupational profile, including participation in activities that are meaningful and necessary for the client to carry out roles in home, work, and community environments. Client factors, including body functions (e.g., neuromuscular, sensory, visual, perceptual, cognitive, mental) and body structures (e.g., cardiovascular, digestive, integumentary systems). Performance patterns (e.g., habits, routines, roles) and behavior patterns. Cultural, physical, social, personal, spiritual, temporal, and virtual contexts and activity demands that affect performance.	BI 100 BI 101 BI 255 AL 186

	OTA Standard	Course #
	Performance skills, including motor (e.g., posture, mobility, coordination, strength, energy), process (e.g., energy, knowledge, temporal organization, organizing space and objects, adaptation), and communication and interaction skills (e.g., physicality, information exchange, relations).	
B.5.2.	Select and provide direct occupational therapy interventions and procedures to enhance safety, wellness, and performance in activities of daily living (ADL), instrumental activities of daily living (IADL), education, work, play, leisure, and social participation.	AL163 AL165
B.5.3.	Provide therapeutic use of occupation and activities (e.g., occupation-based activity, practice skills, preparatory methods).	AL165 AL167
B.5.4.	Provide training in self-care, self-management, home management, and community and work integration.	AL163 AL265B
B.5.5.	Provide development, remediation, and compensation for physical, cognitive, perceptual, sensory (e.g., vision, tactile, auditory, gustatory, olfactory, pain, temperature, pressure, vestibular, proprioception), neuromuscular, and behavioral skills.	PY 100 AL163
B.5.6.	Provide therapeutic use of self, including one's personality, insights, perceptions, and judgments as part of the therapeutic process in both individual and group interaction.	AL252 AL253
B.5.7.	Describe the role of the occupational therapy assistant in care coordination, case management, and transition services in traditional and emerging practice environments.	AL253 AL254
B.5.8.	Modify environments (e.g., home, work, school, community) and adapt processes, including the application of ergonomic principles.	AL167 AL265B
B.5.9.	Articulate principles of and demonstrate strategies with assistive technologies and devices (e.g., electronic aids to daily living, seating systems) used to enhance occupational performance.	AL167 AL265B
B.5.10.	Provide fabrication, application, fitting, and training in orthotic devices used to enhance occupational performance and training in the use of prosthetic devices.	AL167 AL265B
B.5.11.	Provide training in techniques to enhance mobility, including physical transfers, wheelchair management, and community mobility, and participate in addressing issues related to driving.	AL163 AL265B
B.5.12.	Enable feeding and eating performance (including the process of bringing food or fluids from the plate or cup to the mouth, the ability to keep and manipulate food or fluid in the mouth, and the initiation of swallowing) and train others in precautions and techniques while considering client and contextual factors.	AL162 AL265B
B.5.13.	Recognize the use of superficial thermal and mechanical modalities as a preparatory measure to improve occupational performance. Based on the intervention plan, demonstrate safe and effective administration of superficial thermal and mechanical modalities to achieve established goals while adhering to contraindications and precautions.	AL167 AL265B
B.5.14.	Promote the use of appropriate home and community programming to support performance in the client's natural environment and participation in all	AL163 AL167

	OTA Standard	Course #
	contexts relevant to the client.	
	Demonstrate the ability to educate the client, caregiver, family, and significant	AL163
B.5.15.	others to facilitate skills in areas of occupation as well as prevention, health maintenance, and safety.	AL167
B.5.16.	Use the teaching-learning process with the client, family, significant others,	AL162
	colleagues, other health providers, and the public. Collaborate with the	AL163
	occupational therapist and learner to identify appropriate educational	AL166
	methods.	AL167
B.5.17.	Effectively interact through written, oral, and nonverbal communication with	EN 101
	the client, family, significant others, colleagues, other health providers, and the public in a professionally acceptable manner.	AL252
B.5.18.	Grade and adapt the environment, tools, materials, occupations, and	AL163
	interventions to reflect the changing needs of the client and the sociocultural context.	AL167
B.5.19.	Teach compensatory strategies, such as use of technology, adaptations to the	AL163
	environment, and involvement of humans and nonhumans in the completion of tasks.	AL167
B.5.20.	Demonstrate skills of collaboration with occupational therapists on therapeutic	AL163
	interventions.	AL167
B.5.21.	Understand when and how to use the consultative process where appropriate	AL 101
	with specific consumers or consumer groups as directed by an occupational therapist.	AL256
B.5.22.	Recognize and communicate the need to refer to specialists (both internal and	AL 101
	external to the profession) for consultation and intervention.	AL256
B.5.23.	Monitor and reassess, in collaboration with the client, caregiver, family, and	AL162
	significant others, the effect of occupational therapy intervention and the need	AL166
	for continued or modified intervention, and communicate the identified needs	AL265B
	to the occupational therapist.	AL252
B.5.24.	Facilitate discharge planning by reviewing the needs of the client, caregiver,	AL162
	family, and significant others; resources; and discharge environment, and	AL166
	identify those needs to the occupational therapist, client, and others involved in	AL265B
	discharge planning. This includes, but is not limited to, identification of	AL252
	community, human, and fiscal resources; recommendations for environmental adaptations; and home programming.	AL256
B.5.25.	Under the direction of an administrator, manager, or occupational therapist,	AL162
	collect, organize, and report on data for evaluation of practice outcomes.	AL166
		AL265B
		AL252
B.5.26.	Recommend to the occupational therapist the need for termination of	AL161
	occupational therapy services when stated outcomes have been achieved or it	AL166
	has been determined that they cannot be achieved. Assist with developing a	AL265B
	summary of occupational therapy outcomes, recommendations, and referrals.	AL252
B.5.27.	Document occupational therapy services to ensure accountability of service	AL162
	provision and to meet standards for reimbursement of services. Documentation	AL166

	OTA Standard	Course #
	must effectively communicate the need and rationale for occupational therapy services and must be appropriate to the context in which the service is delivered.	AL265B AL252
	Describe the contexts of health care, education, community, and social models	SOC 101
B.6.1.	or systems as they relate to the practice of occupational therapy.	AL161
	Identify potential impacts of social, economic, political, geographic, or	AL254
B.6.2.	demographic factors on the practice of occupational therapy.	AL256
	Identify the role and responsibility of the practitioner to address changes in	AL254
B.6.3.	service delivery policies, to effect changes in the system, and to recognize opportunities in emerging practice areas.	AL256
B.7.1.	Identify how the various practice settings (e.g., medical institutions, community	AL161
	practice, school systems) affect the delivery of occupational therapy services.	SOC 101
B.7.2.	Identify the impact of contextual factors on the management and delivery of	AL254
	occupational therapy services.	AL256
B.7.3.	Identify the systems and structures that create federal and state legislation and	AL254
	regulation and their implications and effects on practice.	AL256
B.7.4.	Demonstrate knowledge of applicable national requirements for credentialing	AL161
	and requirements for licensure, certification, or registration under state laws.	AL256
B.7.5.	Demonstrate knowledge of various reimbursement systems (e.g., federal, state,	AL 101
	third-party, private-payer) and documentation requirements that affect the practice of occupational therapy.	AL254
B.7.6.	Identify the mechanisms, systems, and techniques needed to properly	AL163
	maintain, organize, and prioritize workloads and intervention settings including inventories.	AL167
B.7.7.	Demonstrate the ability to participate in the development, marketing, and	AL162
	management of service delivery options.	AL166
		AL265B
		AL252
B.7.8.	Participate in the documentation of ongoing processes for quality improvement	AL162
	and implement program changes as needed to ensure quality of services.	AL164
		AL166
		AL265B
		AL252
B.7.9.	Identify strategies for effective, competency-based legal and ethical supervision	AL163
	of non-professional personnel.	AL167
B.7.10.	Describe the ongoing professional responsibility for providing fieldwork	AL164
	education and the criteria for becoming a fieldwork educator.	AL253
B.8.1.	Articulate the importance of professional research and literature and the	AL162
	continued development of the profession.	AL166
		AL265B
		AL252
B.8.2.	Use professional literature to make evidence-based practice decisions in	AL162
	collaboration with the occupational therapist that are supported by research.	AL166
		AL265B
		AL252

	OTA Standard	Course #
B.8.3.	Identify the skills necessary to follow a research protocol including accurate and confidential collection of data and related documentation.	AL162 AL166 AL265B AL252
B.9.1.	Demonstrate a knowledge and understanding of the American Occupational Therapy Association (AOTA) Occupational Therapy Code of Ethics, Core Values and Attitudes of Occupational Therapy Practice, and AOTA Standards of Practice and use them as a guide for ethical decision making in professional interactions, client interventions, and employment settings.	AL161 AL254
B.9.2.	Explain and give examples of how the role of a professional is enhanced by knowledge of and involvement in international, national, state, and local occupational therapy associations and related professional associations.	AL254 AL256
B.9.3.	Promote occupational therapy by educating other professionals, service providers, consumers, and the public.	AL254 AL256
B.9.4.	Discuss strategies for ongoing professional development to ensure that practice is consistent with current and accepted standards.	AL161 AL256
B.9.5.	Identify professional responsibilities related to liability issues under current models of service provision.	AL254 AL256
B.9.6.	Identify personal and professional abilities and competencies as they relate to job responsibilities.	AL161 AL164 AL 101
B.9.7.	Identify and appreciate the varied roles of the occupational therapy assistant as a practitioner, educator, and research assistant.	AL161 AL163
B.9.8.	Identify and explain the need for supervisory roles, responsibilities, and collaborative professional relationships between the occupational therapist and the occupational therapy assistant.	AL161 AL163
B.9.9.	Identify professional responsibilities and issues when providing service on a contractual basis.	AL254 AL256
B.9.10.	Identify strategies for analyzing issues and making decisions to resolve personal and organizational ethical conflicts.	AL254 AL256
B.9.11.	Identify the variety of informal and formal ethical dispute-resolution systems that have jurisdiction over occupational therapy practice.	AL 101 AL254
B.9.12.	Identify strategies to assist the consumer in gaining access to occupational therapy services.	AL254 AL256
B.9.13.	Demonstrate professional advocacy by participating in organizations or agencies promoting the profession (e.g., American Occupational Therapy Association, state occupational therapy associations, advocacy organizations).	AL254 AL256

Alan Bearman, Interim Dean of Libraries

FROM: Judy Druse, Interim Assistant Dean of Libraries

DATE: June 8, 2009

RE: Occupational Therapy Assistant (OTA) Program

Monographs: The book/e-book collection of the Mabee Library in appropriate subject areas (*Occupational Therapy* and *Occupational Therapists*) is inadequate to support the proposed new course. The library catalog contains records for only 39 items in the RM735 call number; 17 were published between 2000 and 2009; 7 between 2004 and 2009. The Blackwell Collection Manager lists 59 occupational therapy titles published in 2008/2009; 103 published in 2006/2007. Many recent and/or core titles are missing from the collection (see attached list). Numerous books, however, may be found under related subject headings: *Art Therapy*, *Handicraft*, *Occupations*, *People with Disabilities*, *Physical Therapy*, *Play Therapy*, *Quality of Work Life*, *Recreational Therapy*, *Rehabilitation*, *Vocational Rehabilitation*, *Work*, and others). Additional titles may be cataloged by medical specialty (e.g., *Pediatrics*, *Geriatrics*, or *Psychiatry*) or by affected body systems (e.g., the *Musculoskeletal System* or the *Nervous System*). Books may also be requested through interlibrary loan.

Periodicals: The journal collection is adequate to support the new course. Core journals (e.g., American Journal of Occupational Therapy, OT Practice, Journal of Rehabilitation, Occupational Therapy International, Psychiatric Rehabilitation Journal, OTJR) are available either in print or full text through one of the Libraries electronic databases. As funding permits, access to additional journals (e.g., Journal of Occupational Science, Occupational Therapy in Health Care, Occupational Therapy in Mental Health, World Federation of Occupational Therapists Bulletin, Physical and Occupational Therapy in Geriatrics, and Physical and Occupational Therapy in Pediatrics) should be considered for purchase. Journal articles may also be requested through document delivery.

Databases: Databases (e.g., Academic OneFile, CINAHL Plus, Cochrane Library, ERIC, Health Reference Center, Medline, ProQuest Nursing Journals, PsycInfo, Mental Measurements Yearbook and SportDiscus), which index topics related to occupational therapy, are available to support the new course. Many relevant full-text articles are available through CINAHL Plus, Cochrane Library, JSTOR, Sage Premier and ProQuest Nursing Journals. Other databases (e.g., OT Seeker and OTCATS) are freely available on the Web. As funding permits, access to OT Search, OTDBase, and other relevant databases should be considered for purchase.

Non-print: The University Libraries have no holdings of non-print materials to support the new occupational therapy program. Relevant podcasts may be heard on the American Occupational

Therapy Association's (AOTA) website and 26 AOTA videos may be watched on YouTube. Nevertheless, the Libraries recommend that additional non-print resources be purchased to support the OTA program.

New and/or core books needed for the collection:

Asher, I. Occupational therapy assessment tools. 2007

Bowling, Ann. Measuring health: a review of quality of life measurement scales. 2005. Bracciano, Alfred G. Physical agent modalities: theory and application for the occupational therapist. 2008.

Callaghan, John J. The adult hip. 2007.

Carpenter, C. Qualitative research for occupational and physical therapists: a practical guide. 2008.

Champagne, T. Sensory modulation and environment: essential elements of occupation: handbook and reference. 2008.

Cole, Marilyn B. Applied theories in occupational therapy: a practical approach. 2008.

Cole, Marilyn B. Play in occupational therapy for children. 2008.

Conway, M. Occupational therapy and inclusive design. 2008.

Cook, Albert M. Cook & Hussey's assistive technologies: principles and practice. 2008.

Cooper, Cynthia. Fundamentals of hand therapy: clinical reasoning and treatment guidelines for common diagnoses of the upper extremity. 2007.

Coppard, Brenda M. Introduction to splinting: a clinical reasoning and problem-solving approach. 2008.

Creek, Jennifer. Contemporary issues in occupational therapy. 2007.

Crepeau, Elizabeth. Willard & Spackman's occupational therapy. 2009.

Dunbar, Sandra B. Occupational therapy models for intervention with children and families. 2007.

Early, Mary Beth. Mental health concepts and techniques for the occupational therapy assistant. 2009.

Gillen, G. Cognitive and perceptual rehabilitation: optimizing function. 2009.

Gutman, Sharon A. Quick Reference Neuroscience for Rehabilitation Professionals. 2008.

Hislop, Helen J. Daniels and Worthingham's muscle testing: techniques of manual examination. 2007.

Jabobs, K. Ergonomics for therapists. 2008.

Jacobs, K. Quick reference dictionary for occupational therapy. 2004.

Kielhofner, Gary. Model of human occupation: theory and application. 2008.

Radomski, Mary V. Occupational therapy for physical dysfunction. 2008.

Reference guide to the occupational therapy code of ethics. 2003.

Scheiman, Mitchell. Low vision rehabilitation: a practical guide for occupational therapists. 2007.

Taylor, Renee. Intentional relationship: occupational therapy and use of self. 2008. Zoltan, Barbara. Vision, perception, and cognition: a manual for the evaluation and treatment of the adult with acquired brain injury. 2007.
