

Success in University Studies

Sean Bird, MLS

Associate Dean of University Libraries & the Center for
Student Success and Retention

Alan Bearman, Ph.D.

Professor of History
Dean of University Libraries
& the Center for Student Success and Retention

Success in University Studies

Goal of this Session

Build a relationship with you, so together we can help your student graduate on-time

Success in University Studies

What is on-time graduation?

Success in University Studies

How does the Information Age impact the pace of student studies?

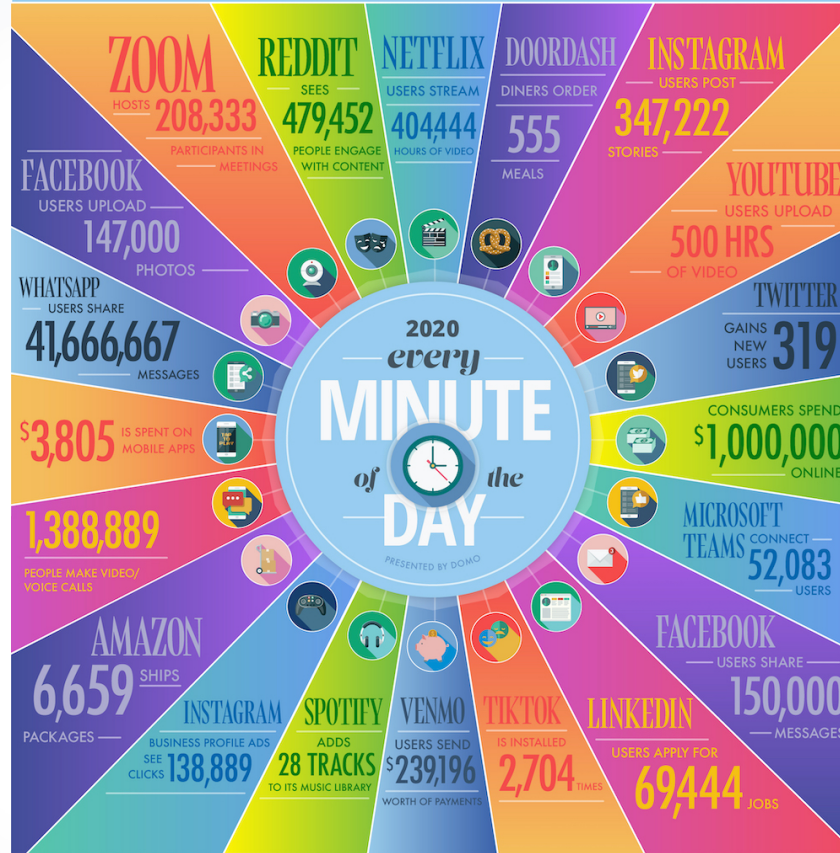

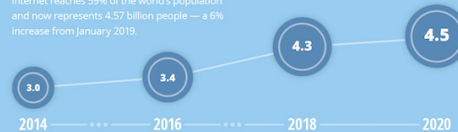

DATA NEVER SLEEPS 8.0

How much data is generated *every minute*?

In 2020, the world changed fundamentally—and so did the data that makes the world go round. As COVID-19 swept the globe, nearly every aspect of life—from work to working out—moved online, and people depended more and more on apps and the Internet to socialize, educate and entertain ourselves. Before quarantine, just 15% of Americans worked from home. Now over half do. And that's not the only big shift. In our 8th edition of Data Never Sleeps, we bring you the latest stats on how much data is being created in every digital minute—a trend that shows no sign of stopping.

The world's internet population is growing significantly year over year. As of April 2020, the internet reaches 59% of the world's population and now represents 4.57 billion people—a 6% increase from January 2019.

GLOBAL INTERNET POPULATION GROWTH 2014–2020 (IN BILLIONS)

As the world changes, businesses need to change with the times—and that requires data. Every click, swipe, share or like tells you something about your customers and what they want, and Domo is here to help your business make sense of all of it. Domo gives you the power to make data-driven decisions at any moment, on any device, so you can make smart choices in a rapidly changing world.
