- BI 100/101

Second Semester
- SO 100
- EN 101 or MA 116
- KN 266
- PY 100
- BI 250, BI 255 or BI 275

Declare your major: Visit the KN Department to discuss degree plans, declare your major, and be advised by a KN faculty member to create a schedule for the following semester. The following is a brief explanation of KN degree programs.

Bachelor of Arts in Health and Fitness Promotion
For students desiring to pursue careers in health promotion, wellness and/or fitness-related settings. Areas such as exercise and sports performance, personal fitness training, corporate wellness, recreation/leisure studies, and public health management are some examples. In addition, students could pursue advanced degrees in other health and fitness related professions but may need to complete additional course work to meet prerequisite requirements.

Bachelor of Arts in Sport Management
For students desiring a career in sports administration and/or the business side of the sports industry. This degree prepares students for managerial positions in a variety of sports-related organizational settings and includes a 20 credit hour Minor in Business from the School of Business.

Bachelor of Science in Exercise and Rehabilitation Science
For students desiring to pursue graduate or professional school in fields such as Athletic Training, Exercise Physiology, Physical Therapy, Nutrition Science/Dietetics, Occupational Therapy, Chiropractic, and Cardiac Rehabilitation. This degree is designed to prepare students to meet many of the prerequisite courses necessary for application to the above mentioned professional degree programs.

Bachelor of Education in P-12 Physical Education Teaching
For students desiring to become a public school physical education teacher. This degree prepares students for the certification required to teach Pre-Kindergarten through grade twelve children the performance and understanding of basic motor skills, games, and lifelong fitness activities, as well as the social and personal skills related to participating in physical activities.
