

## VidGrid Instructions for Students

1. You can record a video directly to an assignment text area or to a discussion thread by clicking on the first icon in the icon bar - **Insert Stuff**.

2. Click on **VidGrid Embed**.
  - a. The first time you use VidGrid, you will need to complete a short install.
  - b. If you receive a 'registration not found' or 'invalid session' message, go back and return or refresh your page.
  - c. If you receive a Login notice, click on Login. If asked to provide credentials, go back and return or refresh your page.
3. Set your options.
  - a. If recording a PowerPoint presentation, drop-down the arrow next to the screen size, and select full-screen.
  - b. If just recording yourself, click on the webcam icon (4). Select Webcam only.

4. Click on the white/red button to record.
5. When done recording, click on the **Check Mark** icon twice. (It is easier to add a title on the next screen).

6. Add your title – **Course Name + Your Name + Assignment Name**. Click on **Rename**. Click on the **CC** option to add Closed Captioning. Click on **Insert**.
