Ethics Paper Guidelines
Chemistry Seminar
CH 391, Dr. Schmidt, Spring 2018

Ethics is an integral part of the discipline of Chemistry. Material has been provided for your required reading, you have completed IRB training*, and each of the faculty will have discussed with you their own thoughts on the subject. **Your Ethics paper should outline your thoughts on how and/or why you will apply Ethics in your future career.**

- As with all of the other projects in this course, you should follow the general outline of three main points given three times.

- You should affix your signature at the end of the paper asserting your agreement to the use of Ethics in your future career.

- Your paper should be one and a half to two pages in length and may use descriptive headings to outline sections of the paper.

- Do not include a Title Page. Instead, include all pertinent information at the beginning of the first page.

- The paper should be formatted for easy reading according to the ACS Style Guide, 3rd edition. Use the equivalent of Times Roman 12 point, 1.5 space, and 1 inch margins. Be sure that the paper is also paginated.

- Plagiarism will not be tolerated, so be sure to reference any previously stated idea or concept that cannot be found in at least three sources. Endnotes should be used for notes and references and should be annotated by numbering in the text using superscripts. (For example.1) Endnotes should be formatted according to the ACS Style Guide, 3rd edition.

* To Self Register for the IRB course, navigate to your Desire2Learn homepage. This can be done by selecting the My Home link on the upper left anywhere in D2L.

1. From the homepage, in the upper right-hand corner, click on the arrow next to **Other.** Select **Self Registration.**
2. Under **Self Registering Course Offerings,** select the link for **IRB (Institutional Review Board).**
3. Under **Description,** select **Register.**
4. Under **Registration Form,** your first name, last name, and email will populate the corresponding fields. Select **Submit.**
5. Under **Confirmation,** select **Finish.**
