

Situation Analysis

Probability of occurrence				Estimated impact on public health & safety			Estimated impact on public property & environment		
	Low	Moderate	High	Low	Moderate	High	Low	Moderate	High
Fire emergencies									
Minor fire									
Major fire									
Explosion									
Medical emergencies									
Death or homicide									
Injury									
Food poisoning									
Mass casualties									
Communicable disease exposure and/or outbreak									
Hazardous material									
Hazardous material release (toxic/cloud)									
White powder/chem./bio/rad/spill/exposure									
Radiation exposure									
Asbestos release									
Transportation accidents									
Automobile accident									
Aircraft collision w/building									
Pedestrians									
Evacuation									
High profile landmarks									
Planned events									
Evacuation									
Shelter-in-place									
Weather emergencies									
University closure									
Flooding									
Ice/snow storm									
Tornado severe or inclement weather									
Earthquake									
Building systems									
Telephone/telecom failure									
Campus-wide utility failure									
Limited utility failure									
Campus-wide IT failure (attack)									
Limited IT failure									
Structural failure
